Professional Summary

I am a motivated Computer Science student at EJUST University with strong proficiency in web development, particularly using MERN stack and related technologies. Experienced in building dynamic and responsive web applications, with a keen ability to learn new tools and frameworks quickly. Passionate about problem-solving and delivering high-quality code, with a solid understanding of front-end and back-end development and best practices. Eager to apply academic knowledge in real-world projects and contribute to innovative development teams..

Education

Bachelor of Science in Computer Science

Egypt-Japan University of Science and Technology (EJUST) — Alexandria, Egypt | Expected Graduation: 2028

- Relevant Coursework: Fundamentals of Programming, Data Structures & Algorithms (DSA), Advanced Programming, Software Engineering
 - **Projects:**
 - *Full-Stack Application:* Developed a full-stack web app using React for the front end and Python with SQLAlchemy for the back end, implementing user authentication and data management features.
-

Professional Experience

Search Engine Evaluator

Telus Digital — Remote | September 2021 – August 2025

- Evaluated and assessed the relevance and accuracy of search engine results, ensuring high-quality user experience and accurate information retrieval.
- Conducted research on diverse topics, providing feedback and recommendations to improve search engine algorithms and enhance results for various search queries.
- Utilized industry tools and guidelines to perform keyword analysis and provide actionable insights to improve search engine rankings and relevance.
- Collaborated with cross-functional teams to refine and optimize algorithms, ensuring adherence to quality standards and best practices.

- Demonstrated strong attention to detail, consistently meeting performance targets and deadlines while maintaining a high level of accuracy in evaluating results.
 - Stayed updated on emerging search trends and algorithm changes to adapt to new evaluation guidelines and methodologies.
-

Volunteer Experience

Volunteer

Life Maker Organization — Beheira, Egypt | August 2022 – Present

- Conduct case research to evaluate the needs of local families, determining whether they require assistance or support.
 - Contributed to community campaigns, providing aid and resources to those in need.
 - Assisted in organizing and running a low-cost clothing market, helping individuals and families access affordable clothing.
 - Worked with children, providing basic education and support through weekly nursing/teaching sessions for several months.
-

Technical Skills

- **Programming Languages:** JavaScript, Python, C++
 - **Web Development:** React.js, HTML5, CSS3
 - **Backend:** Python, SQLAlchemy, Node.js, MongoDB, Express.js
 - **Tools:** VS Code, Git, GitHub, GitHub Copilot, ChatGPT
 - **Other:** REST APIs, Responsive Design
-

Certifications

- **ReactJS Web Development** — Black Horse Courses | Mars 2025
 - **Cloud Essentials** — National Telecommunication Institute (NTI) | August 2025
-

Languages

- **Arabic** — Native
- **English** — Fluent
- **Japanese** — Intermediate
